

ELECTROLIFE RENEW & REHYDRATE

Scours are a major cause of disease and death in calves

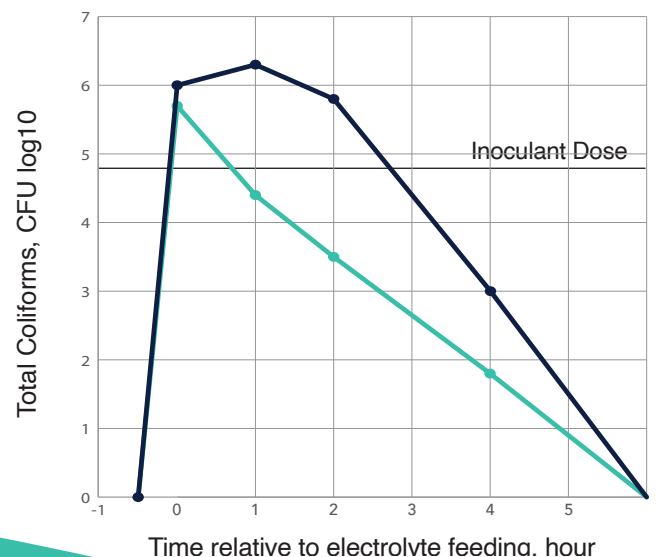

Renew & Rehydrate: Are concentrated acidified oral electrolytes formulated with sodium acetate buffer. Renew is more concentrated and slightly hypertonic, whereas Rehydrate is isotonic and a great option for prophylactic use.

These electrolyte products are formulated to:

- Improve water absorption
- Supply electrolytes
- Reduce metabolic acidosis
- Keep pH of gastro-intestinal tract low

Growth of E.coli in Stomach contents of calves given Electrolytes 30 minutes after milk feeding

— Acetate (Renew/ Rehydrate) — Bicarbonate

An Advanced Acidified Oral Electrolyte for Dehydrated and Stressed Calves

GUARANTEED ANALYSIS

Serving Size: 1.5 oz (45mL) - 3 oz (90mL)

Salt (min).....	3.8%
Salt (max).....	4.5%
Sodium (min).....	5.5% (wt/vol)
Sodium (max).....	6.1% (wt/vol)
Potassium (min).....	2.5% (wt/vol)

PACKAGING & STORAGE

Available in:

- 1 gallon jug (#4012)
- 5 gallon jug (#4011)
- 55 gallon drum (#4002)
- 250 gallon tote (#4001)

Store in a cool, dry place. Keep tightly closed. Shelf life of 12 months in original packaging.

INGREDIENTS

Water, Dextrose, Sodium Acetate, Salt, Potassium Chloride, Sodium Phosphate, Propylene Glycol, Natural and Artificial Flavoring & FD&C Blue #1.

DIRECTIONS FOR USE

Dehydration: Add 2 oz (60mL) - 2.5 oz (75mL) per 2 quarts of fresh water. Continue to offer regular milk feedings.

Prophylactic Supplement: Add 1.5 oz (45mL) - 2 oz (60 mL) per 2 quarts of fresh water.
