RUMEN

A Proprietary Extraction of Hydrolyzed Yeast that Increases the Solubility & Binding Capability of the Manno-oligosaccharides (MOS)

GUARANTEED ANALYSIS

Dry Matter (max).....	88%
Crude Protein (min).....	15%
Crude fat (min).....	4%

INGREDIENTS

Yeast Extract (*Saccharomyces cerevisiae*)

DIRECTIONS FOR USE

Milk-fed Calves: 2.5 grams per head per day

Calf Starter: 2kg (4.5 pounds) per ton of finished feed

Calf Grower: 1kg (2.5 pounds) per ton of finished feed

PACKAGING & STORAGE

Available in 10 kg (22.5 lb; 4 gallon bucket; #3011) container or 50 lb (22.7 kg; #3012) multi-walled bags.

Store in a cool, dry place.

MOS EXTRACT

- Contains a Greater Concentration of MOS (Manno-oligosaccharides)
 - Not diluted with a carrier
- Also Contains Glucan Fractions
- Live Yeast Culture is Extended to Autolyze (naturally break-up) the Yeast Cell
- Series of Extractions to Isolate this Fraction with a Greater Concentration of MOS and Solubility
